

SEWP VI Company Information

- Contract number: 80TECH26D0036
- Contract Category: C
- Contract Period of Performance: 11/1/26–10/31/36
- Contract ceiling: \$20B
- Eligible Buyers: Federal Agencies
- Surcharge: 0.34%
- Program Manager: Lainie Wells
- Deputy Program Manager: Shannon Proud Phillips
- Contact email: sewp@agile5technologies.com

Obtaining a Quote

To obtain a quote for Agile5's SEWP VI Category C offerings, please contact the Agile5 SEWP VI PMO: sewp@agile5technologies.com

Agency Administrative Handling Fee

The SEWP program operates as a self-funded vehicle through an Agency Administrative Handling Fee, currently set at 0.34%. This surcharge is built directly into our quoted product and service prices; therefore, it must not appear as a separate line item on quotes or delivery orders. Agile5 Technologies, Inc. is solely responsible for remitting this fee to the SEWP PMO.

Agile5 Support

Contact the Agile5 SEWP VI PMO team directly via sewp@agile5technologies.com for quote assistance, order tracking, and technical inquiries.

NASA SEWP PMO Support

Contact the NASA SEWP PMO at help@sewp.nasa.gov for overarching programmatic questions, policy guidance, or technical assistance using the QRT.

SEWP VI Ordering Guide: Category C

NASA SEWP VI Overview

The National Aeronautics and Space Administration (NASA) Solutions for Enterprise-Wide Procurement (SEWP) VI is a premier Government-Wide Acquisition Contract (GWAC). Authorized by the Office of Management and Budget (OMB) under the Clinger-Cohen Act of 1996, this GWAC empowers all Federal Agencies and their approved support contractors to procure cutting-edge Information Technology, Communication, and Audio-Visual (ITC/AV) solutions. The core mission of the SEWP program is to enable NASA and all Federal Agencies to acquire essential solutions and services effectively and efficiently. By leveraging customized reporting, streamlined procurement processes, innovative applications, and premier customer service, SEWP fosters a powerful Government-industry partnership that consistently delivers Best-in-Class value.

SEWP VI Ordering Process

Agile5 provides Government agencies with a streamlined, compliant procurement experience through the NASA SEWP VI vehicle. The SEWP ordering process begins when agency customers issue requirements through the NASA SEWP Quote Request Tool (QRT) to ensure Federal Acquisition Regulation (FAR) compliance. In response, we securely submit our quote and a Contract Line Item Number (CLIN) verification file via the Contract Holder Only Page (CHOP) to validate authorized items and pricing. Once an order is placed, the SEWP Program Management Office (PMO) validates the submission and assigns a SEWP Control Number (SCN) to track and route the procurement to us. Finally, we process the validated order through the CHOP, correcting any Request for Quote (RFQ) or pricing discrepancies with the CLIN file prior to fulfillment.

Mandatory Order Information

Orders submitted to the SEWP PMO must contain the following mandatory information to prevent processing delays:

- The exact RFQ number generated by the QRT.
- The official SCN assigned by the SEWP PMO.
- Financial totals matching the quote and the CLIN verification file.
- Complete agency contact details, delivery addresses, and billing instructions.

Capabilities Statement

Proactive Planning, Agile Execution: Agile5 Technologies, Inc. (Agile5) is a trusted Federal solution provider. Since 2012, we have executed on 60+ contracts worth more than \$100 million. We provide our customers with subject matter expertise and IT services that are on time and on budget. We achieve mission success with people, processes, and technology that are:

- **Effective:** 2024 National Small Business Week Award Winner
- **Trusted:** ISO 9001:2015 (quality), 20000-1:2018 (services), and 27001:2022 (security)
- **Efficient:** CMMI® for Development Level 3

Core Capabilities and Expertise

Cybersecurity

- Continuous Authority to Operate (ATO)
- Cyber automation and scanning
- Automated Compliance Engine (ACE™): Translates vulnerabilities into actionable threat insights

Artificial Intelligence (AI)

- Systems integration leveraging AI and machine learning

Cloud Services

- Quick Build Foundation: cloud-agnostic Infrastructure as Code
- Advanced cloud architecture and design
- Secure legacy migration and modernization

Agile Software Development

- Discovery, design, architecture
- DevSecOps with CI/CD pipelines
- Automated and human exploratory testing
- User experience with human-centered design
- Agile transformation

Biometrics

- Development, integration, Operations and Maintenance (O&M)
- Algorithm updates
- Data recharacterization

Regulatory Technology

- O&M, stabilization, and modernization

Professional Services

- Program management
- Management and advisory services; training

Awards and Recognition

- SBA National Small Business Week Awardee
- *Washington Technology's* Fast 50
- *CIOReview's* Most Promising Agile Services Company
